More Information about the

FINS Student loan:

<https://hellofins.com/>

As an international student you have to make financial arrangements before leaving your home country. In Germany you can apply to performance-based scholarship programmes and, depending on your nationality, to a student loan. Student jobs are a very good option to earn some extra money and gain valuable work experience during your studies.

STUDY LOANS | EU nationality is required

— FINS Student loan | EU nationality is required:

FINS offers student loans to both undergraduate and postgraduate European students that want to study at a university in the European Union. Students get a customised loan offer based on their budget and are able to access up to EUR 25,000 (in instalments or as needed) for a Bachelor's or a Master's degree. Students must have a clean financial record but do not need any earnings, physical guarantees or mortgages.

The repayment period starts 6 - 12 months after you have finished your studies. FINS loans have an interest rate between 9.5% and 12.5% during your studies, during the grace period, and in the first 6 months of the repayment period. Starting with the 7th month of the repayment period, you can benefit from a reduced interest rate of 9%. The repayment periods are 5 years for Master's graduates and 10 years for Bachelor's graduates. There are no extra costs if you can pay off the loan earlier.

SRH EDUCATION FUNDS | EU nationality is required

A fair financial solution where repayments are based on your income. The SRH Education Funds with Brain Capital and Chancen's Income Share Agreements (ISA) ensure equal access to education with a fair financial solution, irrespective of your current financial status. Main principle is "solidarity community": "Top earners" take on less successful sponsors so that future generations can continue to use the funding.

— Brain Capital | EU nationality is required:

Study first, pay later: the Next Generation Contract is an innovative model designed to finance your education. With this model, every qualified applicant can study at their preferred university without paying tuition. Brain Capital was founded in 2005 and is one of the largest providers of education funds.

OTHER SCHOLARSHIP PROGRAMMES | For all nationalities

There are several political and religious foundations in Germany that offer scholarships based on criteria such as academic performance and social/political commitment.

— DAAD Scholarship Programmes:

Every year, the German Academic Exchange Service (DAAD) supports well over 100,000 students and researchers around the globe. DAAD scholarships are aimed primarily at graduates and are awarded for study and research visits to universities and non-university research institutions in Germany. In some programmes, internships are also funded. You can find information on the various types of scholarships in the DAAD scholarship database.

Heinrich Böll Foundation Scholarships:

Every year, the Heinrich Böll Foundation awards approximately 1,200 scholarships to ambitious students, graduates and doctoral candidates of all disciplines and nationalities. Scholarship recipients are expected to show outstanding academic performance and political and social commitment, with an interest in values such as ecology, sustainability, democracy, human rights, self-determination and justice.

Students from non-EU countries receive €850 per month as part of their Master's degree, in addition to individual allowances. EU students with the same level of study receive €649 plus €300 book allowance per month. The scholarship is awarded for the standard period of study with the possibility of extending it by one semester.
